FOR IMMEDIATE RELEASE

Crosslink International Achieves ISO 2008 Recertification, Celebrates ZERO FINDINGS in 3 Years

May 12, 2011 – Crosslink International Inc., manufacturer of rubber and rubber to metal applications for the automotive, industrial, and specialty markets recently earned recertification from Dekra Recertification, Inc. for the ISO 9001:2008 Standard. The recertification is valid until May 12, 2014.

This designation acknowledges that the practices and processes comprising Crosslink's quality management system are in compliance with the ISO 9001:2008 standard for design and manufacture of rubber and rubber to metal applications. This certificate provides Crosslink's credibility in the market and is indicative of its commitment to our customers.

Crosslink International, Inc is a World-Class Elastomers Company serving the Automotive, Industrial and Specialty OEM markets. Our core competencies revolve around the Design and Development of complex rubber, and rubber to metal applications. Crosslink is dedicated to being the leading provider of high-quality, custom elastomer products to the Americas, European and Asian markets.
